

GLAMOUR PHOTOGRAPHY STYLE GUIDE

Deniz Leu
—PHOTOGRAPHY—

WHAT TO WEAR

Bring 5-6 outfits with a variety of styles
This is a great excuse to go shopping!
Try to bring outfits that are not multi-coloured and without prints.

Some options to consider:

- * Something in a light & pastel colour like cream, nude or blush
- * Something dark like black, navy or charcoal
- * Something sexy: something with a low-neck, backless or with lace
- * Something epic: This is your chance to dress like you dreamed about: Movie star? Princess?
- * You can even rent your dream outfit for your photo shoot. Run wild in your imagination

CLOTHING FITTING YOUR FORM

It is the best for your photos when your clothing emphasizes your shape and that applies to any body shape.

It should be tight around your curves and especially around your upper body.

Loose skirts are great if the upper clothing is tight.

~~Loose and shapeless tops don't work for photos although they may be great in person.~~

NECKLINES

Different combinations of necklines will add variety and interest to your shots.

You can wear one shoulder, low-neck or sweetheart neckline.

Don't bring only one type of neckline.

THINK TEXTURE

Lace, chiffon, embroidery or bead-work will bring richness.

But no prints or logos!

UNDERWEAR

For a strapless dress or sweetheart-neck, you need a bra without straps.

If you have nude coloured outfit, nude coloured underwear works best.

Black bras look wonderful under black dresses.

Shapewear can also help you cover unwanted wobbly bits.

THINGS TO REMEMBER

ACCESSORIES

You can bring interest with scarfs, jewelry and hair accessories to your shots.

Choose timeless over trendy to look to your pics ten years from now and still to be happy.

SHOES

You don't need them because they won't be showing!

NO BULKY JACKETS!

If you are interested in a business-friendly shot, bring a very fitting blazer or a nice formal-looking cardigan.

FLATTEN YOUR ARMS

Different sleeve lengths is another way to bring variety.

If you are not happy with how your arms look, bring something with 3/4 arms or longer.

If you are happy with how they look, armless tops or strapless dresses can be a great option.

HOW TO SHOW UP ON THE DAY OF YOUR PHOTO SHOOT

NAILS: Clean, polished, maybe nude or cream coloured painted. Trim them the way you like

HAIR: Clean and dry. If you dye your roots, please do that before the shoot.

FACE: Clean and fresh face. Because you will get a make up and it is best to come the shoot with a clean face.

COMFY CLOTHES: Before the shoot begins, there will be around an hour for hair & makeup. So make sure that you have comfy clothes. Also be careful that when you take off your clothes, it won't mess up your hair.

HAIR REMOVAL: Not only the eyebrows but other places that can show up in your shots.

“A GIRL SHOULD BE TWO THINGS:
CLASSY AND FABULOUS.”
